NFADA member dealerships are anxious to partner with you and your schools to ensure your students are prepared for employment. These dealerships across WNY have a constant need for qualified employees, many in the career & tech arena. Be a part of a panel discussion with department managers and HR personnel about their current and future needs. Learn from the people who hire your students what they look for in an employee.

Please plan to attend this informational session to learn about the many career fields available to your students in our local new car dealerships. Did you know that the average association member dealership employs 61 people?
